The Canada-Italy Co-Development Incentive

The Canada-Italy Co-Development Incentive (the “**Incentive**”) is a collaboration between the Canada Media Fund (**CMF** or “**Party**”) and the Directorate General Cinema of the Italian Ministry of Cultural Heritage, Activities and Tourism (“**DGC**” or “**Party**”) (the CMF and DGC, collectively the “**Parties**”) to fund the co-development of eligible one-off documentary projects between producers from Canada and Italy.

The total amount of funding available through the Incentive is CDN \$200,000 (approximately 150,000 €) with CDN \$100,000 (approximately 75,000 €) contributed by each of the CMF and DGC. Such funding will take the form of a non-repayable contribution.

To be considered for funding through the Incentive, projects must comply with both Parties’ general funding criteria, with the CMF determining eligibility for the Canadian portion of a project and DGC determining eligibility for the Italian portion of the project. Projects will be evaluated and chosen by a committee comprised of representatives from each of the CMF and DGC through a selective process (using the Evaluation Criteria listed below). It is important for Applicants to note that eligibility to or financing through the Incentive does not guarantee the Applicant eligibility or financing for further CMF or DGC funding in development or in production.

The total maximum contribution for each project funded through the Incentive shall be CDN \$50,000 (approximately 40,000 €), consisting of (a) a CMF contribution which shall not exceed 75% of the Canadian development budget and (b) a DGC contribution which shall not exceed 80% of the Italian development budget.

The total contribution from each of the CMF and DGC for each project will be determined on a case by case basis.

While the ownership, financial control and creative contributions shall be determined in the co-development agreement between the applicable international co-producers, the minimum minority co-producer share shall not be less than 20%. As a general guideline, the CMF and DGC encourage that such elements be proportional to each Party’s respective funding contributions.
